To the gentleman Judiciary of the Michigan Supreme Court:

My name is Rocco A. Longo, now retired, having worked for 31 years at Ford Motor Company. From March 1962 to January 1993.

As a pipe-fitter, you probably know, in my tasks through the years we had to handle asbestos materials, as a consequence, together with so many other co-workers we suffer from lung and esophagus problems.

So with the help of the firm of attorneys Goldberg, Persky, Jennings and White P.C., we are trying to collect at least some compensation for our ailments.

So please: On court Rule No. 2003-47 come out in favor of those of us suffering the effects of asbestos inhabitation while discharging our duties at work.

We believe it is our Constitutional right to claim some compensation.

With faith in your judgments.

I respectfully sign off.

Rocco A. Longo
